

MAGNETS

POWERFUL NEODYMIUM RARE EARTH MAGNETS

Neodymium (NdFeB) magnets have ratings into the 45MGOe range far exceeding the Samarium Cobalt in the 32MGOe range and Alnico or Ceramics in the 8MGOe range. Because of the high strength of Neodymium magnets, and to prevent injury to people or equipment, care must be taken when handling these around other magnets or metal objects. CAUTION! These magnets are fragile and will shatter.
