### METAL FAN GUARDS

for square fans.

**PLASTIC FILTER KITS**

Plastic guard, filter and retainer.

**RUBBER FAN MOUNTS**

Press-fits into the mounting holes of most cooling fans. Absorbs unwanted cooling fan vibration.

**THERMOELECTRIC (PELTIER) DEVICE**

When current is applied one side gets hot and the other gets cool. Commonly used to cool, heat or regulate temperature, it can also take advantage of a temperature differential to generate electricity. The hot side should be attached to a heatsink.
