### RECHARGEABLE BATTERIES

#### NICKEL METAL HYDRIDE

Nickel Metal Hydride batteries have double the capacity of standard nickel cadmium cells and can be charged faster without the “memory problems” associated with nickel cadmium batteries.

### LITHIUM - RECHARGEABLE

3.7V 2600mAh. Button-top 18650 Lithium-Ion rechargeable battery. High energy density and capacity. Long life-span. Built-in protective circuitry prevents voltages outside of 2.5-4.25V. 2.70” long x 0.71” diameter.

**CAT# LBAT-18650** | $10.50 each

#### LI-ION RECHARGEABLE BATTERIES

Note: even with the protection on these batteries, it is very important to only use a LiIon/LiPoly constant-voltage/constant-current charger to recharge them and at a rate of 500mA or less. Also note shipping restrictions: Ground Shipping Only.

3.7V 2200 MAH

2.67" x 0.36". Three 3" leads with three-conductor socket connector, 1.5mm spacing. Charging protection circuit keeps the battery voltage from over-charging or going too low when being used. It will also protect against output shorts.

**CAT# LBAT-220** | $6.95 each

### BATTERY CHARGER BOARD LI-ION / LI-POLYMER

Originally a conditioning charger for a 14.4V 2600mAh Li-Ion/Li-Polymer battery. The circuit board has a 100uh, 4.3A inductor, CTX100-2-52M, that is well worth the price of the board. With a little effort you can remove the inductor, 3 sets of header connectors, a MOSFET, two voltage regulators, two TO-220 aluminum heatsinks, three 330 uf 35v radial electrolytic capacitors.

**CAT# EX-57** | $1.50 each • 10 for $1.20 each

### LITHIUM BATTERY CHARGER

TP4056 charger for up to 1A Lithium Ion rechargeable battery. Input: 4.5-5.5Vdc. Suitable for USB-powered charger. Mini-USB input jack. 1.05” x 0.75” x 0.20”.

**CAT# BC-4056** | $2.75 each

---

Note: with solder tabs added.

**AA CELL** | 1.2V 800 mAh | $2.25 ea. • 10 for $2.00 ea.
| **AA CELL W/ SOLDER TABS** | 1.2V 900mAh | $3.25 ea. • 10 for 3.00 ea.
| **SUB-C W/ SOLDER TABS** | 1.2V 1800 mAh | $4.95 ea. • 10 for 4.75 ea.
CHARGS FOR NIMH / NICAD

**NI-CD / NI-MH BATTERY CHARGER**
Charges 1-4 D, C, AA, AAA batteries or 1 - 2 9V batteries, Ni-cad or Nickel Metal-Hydrde. Charge status lights for each battery. Automatic charging current control. Trickle charge keeps batteries topped off. Reverse polarity protection.

**INTELLIGENT 4-BAY UNIVERSAL CHARGER**
Tenergy T4S. An automatic smart-charger that is compatible with almost all rechargeable batteries, Li-ion, Ni-MH and Ni-Cd, thus eliminating the need to own several chargers. Capable of charging 4 batteries simultaneously.

**DUAL-STAGE CHARGERS**
Regulated current control prevents damage to battery. “Fast-charge” brings battery to fully charged state at which point the float-charge takes over, maintaining the battery at a constant voltage. LED indicates charge state. All have screw terminals, except BC-215* which has 6’ output cable with 2.5mm co-ax plug. UL.

**BATTERIES NON-RECHARGEABLE**

**DURACELL® PROCCELL®**

**AAA CELL** 1.5 VOLT 1000 mAH
CAT# PRC-2400 75¢ each

**AA CELL** 1.5 VOLT 2100 mAH
CAT# PRC-1500 75¢ each

**C CELL** 1.5 VOLT 7000 mAH
CAT# PRC-1400 $1.75 each

**D CELL** 1.5 VOLT 14000 mAH
CAT# PRC-1300 $1.75 each

**9 VOLT BATTERY** 565 mAH
CAT# PRC-1604 $2.75 each

**ALKALINE BATTERIES**

**6V** 4LR44, L1325, 28A, A544, PX28A. 25mm long x 13mm diameter.
CAT# BAT-44 $2.00 ea. • 5 for $1.75 ea.

**12V** 27A MN27. For remote controls, lighters and other electronic devices. Also known as G27A / MN27A / A27 / L828 / ELB12 / EL-812 / CA22 / VR22 / CN22 / CN23A / Bronica B-1. 0.3” dia. x 1.08” long.
CAT# BAT-27 $1.75 each

**12V** 0.41” dia. x 1.13” long cylindrical cell used in keychain alarm remotes and photo apps. CAT# BAT-12 $1.25 each • 10 for $10.00
